Languages: English (Proficient) | Afaan Oromo (Native) |
Amharic (Fluent)

PROFESSIONAL SUMMARY

Results-driven Software Engineering graduate (CGPA 3.76) with hands-on experience in full-stack development, system design, and Agile collaboration. Proven ability to build scalable applications across web, backend, and database layers, with a strong foundation in problem-solving, clean code practices, and iterative development. Passionate about leveraging diverse technologies (MERN stack, Python, Java) to deliver efficient solutions. Adaptable learner with experience in mentoring, technical documentation, and cross-functional teamwork.

EXPERIENCE

Full Stack Developer Intern

Debbal Softwares, Addis Ababa | Feb 2024 – Aug 2024

- Developed a blog platform with user auth, admin panels, and dynamic content using MERN stack.
- Built REST APIs with Express.js, implemented JWT authentication, and optimized performance.
- Improved blog platform performance and UX, leading to faster page loads and higher user engagement during internal testing.

EDUCATION

Bachelor of Science in Software Engineering

Jimma University | Sep 2020 – June 2025 | CGPA: 3.76 | Exit Exam: 84%

- Relevant Coursework: Algorithms, Data Structures, Database Systems, Software Architecture, Distributed Systems.

PROJECTS

1. Online Donation Platform for NGOs (Final Year Project)

- Full-stack system (React + Node.js + MongoDB) enabling secure donations, transaction tracking, and analytics.
- Link: <https://donate-link.netlify.app/>
- GitHub: github.com/ERMIAWAKGARI/DonateLink

2. SoftExit – Exit Exam Preparation App

- Interactive exam app with timed tests, progress tracking, and feedback systems (React + Firebase).
- Link: <https://softexitweb.netlify.app/>
- GitHub: github.com/ERMIAWAKGARI/softexit

3. Blog Platform

- Full-featured blog application supporting user roles (admin/writer/viewer), secure authentication, rich content creation, and CRUD operations for posts.
- Link: <https://blog-peach-three-24.vercel.app/>
- GitHub: <https://github.com/ERMIAWAKGARI/blog>

SKILLS

Technical Skills

- Languages: JavaScript/TypeScript, Python, Java, C++, PHP
- Full-Stack: React, Node.js, Express.js, RESTful APIs, MVC
- Databases: MongoDB, PostgreSQL, MySQL
- Tools: Git, Docker (Basics), AWS S3, Postman, Agile/Scrum
- Concepts: OOP, System Design, Algorithms, CI/CD

Soft Skills

- Problem-Solving | Creativity | Technical Documentation | Collaborative Coding
- Adaptability | Mentorship | Cross-Functional Communication
